

CEROIL Hydro-Taqués

Reduces hydraulic noise

PRODUCT

Detergent additive for cleaning oil ducts and hydraulic taps. It also has an anti-friction effect to reduce the noise of tappets and valves.

APPLICATION

* SHAKE BEFORE USE *

1 - Pour the contents with the engine stopped preferably at operating temperature.

2- Start the engine for 15 minutes and / or circulate normally. Valid for up to 6 liters of oil.

ADVANTAGES

- Reduces the noise produced by the tappets.
- Removes lubricant residues.
- Improves the operation of hydraulic pushers.
- Improves engine performance.
- Suitable for diesel and gasoline.
