

CEROIL Hidro-Taqués

Reduces hydraulic noise

Fecha de revisión: 14/03/2022

Página 1 de 1

PRODUCT

Detergent additive for cleaning oil lines and hydraulic tappets. It also has an anti-friction effect to reduce tappet and valve noise.

APPLICATION

* SHAKE BEFORE USE *

1 - Pour the contents with the engine stopped, preferably at operating temperature.

2- Start the engine for 15 minutes and/or drive normally.

Valid for up to 6 litres of oil.

ADVANTAGES

- Reduces the noise produced by the tappets.
- Eliminates lubricant residue.
- Improves the operation of the hydraulic pushers.
- Improves engine performance.
- Suitable for diesel and gasoline.
