

CEROIL INYETSOL + moto

Injector cleaner / Anti-smoke / Pre-ITV

PRODUCT

With a new formula, INYETSOL+ moto becomes one of the most complete fuel additives on the market. It is a product that offers the features of four products in just one. It is a high-speed cleaner for injectors and fuel passages. In addition, it is an excellent treatment for fuel and tanks, eliminating water and condensation. Suitable for all types of motorcycles and for 2T and 4T engines

USEFULNESS

NewFormula 4 in 1

- 1- INJECTORS CLEANER
- 2- ANTI-SMOKE
- 3- PRE-ITV TREATMENT
- 4- FUEL TREATMENT

ADVANTAGES

- Reduces fuel consumption by up to 15%.
- Reduces emissions of smoke and polluting gases up to 44%.
- Facilitates cold starting.
- Removes residues and soot in the combustion chamber.
- Does not alter the octane rating of the fuel.
- Enriches and improves combustion.
- Removes water from the fuel and neutralizes oxidation.
- Maintains injector pressure.
- Keeps the system clean avoiding the formation of deposits.
- Protects against corrosion.
- Regenerates catalysts, if they are not obstructed.
- Fuel antifreeze up to -15°C.
