

CEROIL AdBlue injectors cleaner

Cleaner additive for SCR systems.

PRODUCT

Active substance to solve problems of obstruction due to crystallization in AdBlue injectors. The specially developed formula cleans dirty urea injectors and SCR catalysts. This can prevent performance losses and even engine failure. It is recommended to apply periodically with preventive fines.

Composition: alcohols, C9-11-branched, ethoxylated (10-20%), ammonia (0.2%).

DOSE

- 100ml is enough to treat 20L of AdBlue.
- 5L are enough to treat 1000L of AdBlue.

It can be poured into the bottle (pre-mix) or directly into the AdBlue tank.

It is recommended to apply periodically for preventive purposes to ensure its effectiveness.
