

CEROIL STOP LEAK ENGINE

Regenerates gaskets and prevents leaks

PRODUCT

Oil soluble additive, which regenerates hardened joints, covers small cracks, removes and prevents from small oil leaks. Aluminum bottle.

UTILITY

For all types of diesel and gasoline engines with oil leaks.

ADVANTAGES

- **Restores the elasticity of the hermetic rings and the rubber retains and the crankshaft neoprene, tree of cams and valve guides.**
- It does not alter the quality or viscosity of the oil.
- Reduces engine oil consumption.
- Eliminates oil leaks.
- Returns elasticity to gaskets and engine seals.

APPLICATION

- 1- Add the additive directly to the oil, with the engine warm.
 - 2- Keep the engine running for 10-15 min.
- Do not use in automatic gearboxes or wet clutches.

DOSE

A dose of 500 ml. it is enough for 3 to 6 L. of oil

Reference	Capacity	Units per box
CO0033FNA	500 ml.	12
CO0033HNA	1 L.	12
CO0033JNA	5 L.	4
