

CEROIL AdBlue SCR Cleaner

Cleaner additive for AdBlue and SCR systems.

Review date: 04/10/2023

PRODUCT

Active substance to solve problems of obstruction due to crystallization in AdBlue injectors. The specially developed formula cleans dirty urea injectors and SCR catalysts. This can prevent performance losses and even engine failure. It is recommended to apply periodically with preventive fines.

The product self-life is 5 years in sealed containers, stored at room temperature that does not exceed 25°C and never below -11°C.

DOSE

- 100ml is enough to treat 40L of AdBlue.
- 5L are enough to treat 2000L of AdBlue.

It can be poured into the bottle (pre-mix) or directly into the AdBlue tank.

It is recommended to apply at each fill-up of Adblue for preventive purposes to ensure its effectiveness.
