

CEROIL CATALYST CLEANER

Catalyst Cleaner. Diesel and petrol.

PRODUCT

Powerful cleaner for catalytic converter, lambda sensor and exhaust system components. Ideal for overcoming anti-pollution controls as it dissolves soot and resin deposits present in the catalytic converter, lambda sensor, turbo, etc. Aluminium bottles.

UTILITY

For any type of diesel or petrol engine with catalytic converter.

ADVANTAGES

- Dissolves diesel and petrol residues in the catalytic converter, lambda sensor, pumps, injectors and exhaust system.
- Reduces maintenance costs.
- Cleans and restores catalytic function.
- Restores correct air/fuel ratio.
- Extends catalytic converter life.
- Ideal treatment for vehicles on short journeys.

APLICATION

SHAKE BEFORE USE

1. Pour the dose into the fuel tank, preferably in reserve.
2. Start the engine and let it idle for 3-4 min. above 2.000 rpm.
3. Drive for 20-30 minutes above 2.000 rpm. using low gears if necessary.
4. Stop the vehicle and let it cool down at idling speed for about 5 minutes.

DOSAGE

500ml is enough for 1 use.

For an ideal preventive treatment use it every 3.000 Km.

Reference	Capacity	Unit Box
CO0052FNA	500 ml.	12
CO0052HNA	1 L.	12
CO0052JNA	5 L.	4

ASSOCIATED PROBLEMS

- THE MALFUNCTION LAMP LIGHTS UP
- REDUCED PERFORMANCE
