

# CEROIL KIT ECONOMIZER

**Injectors cleaning + Anti-friction treatment**

**It is a combination of two products: Ceroil Platinum and Ceroil Inyetsol + it, provides a full treatment for the engine, improving lubrication and combustion.**

## CEROIL PLATINUM: ANTIFRICTION TREATMENT ENGINE / GEARBOX

Concentration of micro-ceramic particles that forms a dispersion in the lubricating oil and remain adhered to the metal, creating a thin film of diamond hardness and extremely slippery, achieving an antifriction effect that improves performance, reduces consumption and prolongs the useful life of the engine.

## INYETSOL+ : INJECTORS TREATMENT

With a new formula, INYETSOL + becomes the most complete additive fuel in the market. This is a product that offers the characteristics of four products in just one.

INYETSOL + is a high speed cleaner with the latest technology. It removes any dirt obstructing the fuel lines and prevents the injectors from working properly. Is is also an excellent treatment for fuel tanks as it removes water, fungus and bacteria.
