

CEROIL INYETSOL + moto

Injector cleaner / Anti-smoke / Pre-ITV

Revision Date: 14/03/2022

Page 1 de 1

PRODUCT

With a new formula, INYETSOL+ moto becomes one of the most complete fuel additives on the market. It is a product that offers the features of four products in just one. It is a high-speed cleaner for injectors and fuel passages. In addition, it is an excellent treatment for fuel and tanks, eliminating water and condensation. Suitable for all types of motorcycles and for 2T and 4T engines.

USEFULNESS

New Formula 4 in 1

- 1- INJECTORS CLEANER
- 2- ANTI-SMOKE
- 3- PRE-ITV TREATMENT
- 4- FUEL TREATMENT

ADVANTAGES

- Reduces fuel consumption by up to 15%.
- Reduces emissions of smoke and polluting gases up to 44%.
- Facilitates cold starting.
- Removes residues and soot in the combustion chamber. • Does not alter the octane rating of the fuel.
- Enriches and improves combustion.
- Removes water from the fuel and neutralizes oxidation.
- Maintains injector pressure.
- Keeps the system clean avoiding the formation of deposits.
- Protects against corrosion.
- Regenerates catalysts, if they are not obstructed.
- Fuel antifreeze up to -15°C.

TECHNICAL DATA	
Colour	blue ISO 2049
Aspect	Transparent
Density a 20°C	0,785
Viscosity a 20°C	2,00
T ^a inflammation	44°C
PH, 20% in Water	7.2 - 8.2

Reference	Capacity	Uds. Box
CO0003YAC	100 ml.	20

APPLICATION

- Apply a dose of the product in the fuel tank, preferably in reserve.
- Start the engine and let it idle for about 15 minutes, accelerating vigorously 3 or 4 times every 3 minutes.
- Drive about 15 km. or 15 min. forcing high R.P.M.

➔ We recommend applying it every 10,000km as preventive maintenance.
