

## PRODUCT

Spray penetrant with ceramic (boron nitride) and lubricant, which helps to unblock seized injectors and spark plugs, freeing them and facilitating their removal.

## ADVANTAGES

- ✓ Facilitates fast removal of seized injectors and spark plugs.
- ✓ Contains ceramic microparticles and other compounds, which penetrate and facilitate removal.
- ✓ Does not contain aggressive products for the engine.

## APPLICATION

**\*SHAKE BEFORE USE\***

1. Spray the injector, spark plug, etc, to be treated.
  2. Wait a few minutes.
  3. Remove the blocked injector.
- It is recommended to use the product again during assembly.
