

## TECHNICAL DATA

# Eco Clean SANI-COV PLUS

## MULTIPURPOSE SANITIZING CLEANER

## PRODUCT

Specific product for waterless cleaning and deep sanitation or sanitation of any fabric or surface, as well as bodies and interior parts of vehicles or motorcycle helmets. Ideal for the treatment of all types of boutique items (clothing and footwear) and vehicles: cars, industrial vehicles, motorcycles, bicycles, scooters, etc. Formulated with special surfactants and benzalkonium chloride.

Ensuring the cleanliness and deep hygiene of the vehicle is essential in vehicles for collective use, rental vehicles, public services (taxis, buses, ambulances, municipal vehicles, etc.) and commercial and industrial vehicles, etc. that are usually handled by different people. It is also recommended to clean and sanitize all the objects that we often touch such as the mouse, keyboard or smartphone screen, among others.

## APPLICATION

1- Spray directly and abundantly by areas and distributing evenly with a first cloth to remove the strongest dirt.

2- Rub with a second clean cloth until the surface is dry.

→ Apply in a special way in those areas that are usually touched with the hands: steering wheel, handlebars, door and trunk handles, mirror housings, handlebars, handles, etc.

→ It does not attack rubbers, plastics, varnishes or fabrics

→ Do not apply when the body is very hot

Available in 250 ml and 5L
